Running the Blockade.

National Associated Press to the Star. LONDON, May 1 .- Hobart Pasha left Rustehuk at night, approaching Galafz, which was guarded by torpedoes and which was guarded by torpedoes and beavy batteries. Lights on the steamer were extinguished, but a rocket from the Roumanian shore showed the steamer was discovered. Coming abreast of the batteries, the heavy guns began to fire, but the Bettymo was run so close in shore that the gunners were unsable to depress their pieces sufficiently for the shots to take effect. The Admiral only fired one shot, and the Rettymo passed to the Black Sea safely.

Another Victim of the Fire.

National Associated Press to the Star. MONTREAL, May 1 .- Another victim of Sunday's fire died this morning. Livingston, the principal man of the Skinner Ladder Corps, and Chiefs Hulfon and Ferguson are very much worse this morning, and all hope of their recovery is given up.

Bank Fatture.

National Associated Press to the Star. PHILADELPHIA, May L-The Union Banking Company, No. 310 Chestnut street, closed its doors this morning, as it was discovered that the cashier, Jas. A. Hill, is a defaulter for \$25,000. The bank goes into l quidation under an assignee. Depositors, it is said, will be paid in full.

A dispatch from Bucharest, dated Monday, says: "The Russians are adreats at Reni. Grand Duke Nicholas will establish his headquarters at Jassy to-day, whence they will afterward be advanced to Piocesti. It is reported that the Turkish gunboats have left the lower Danube, fearing torpedoes and the Russian heavy artiliery. It is believed that the slow movement of the Russians is due to an intention to give the Turks ample time to reflect upon their present situation."

A special from Odessa says: "Ry orders received on Saturday, Odessa has been declared in a state of siege," IN THE DOMINION.

Solution and Turkish Ministers.

Both the Russian Minister, Nicolal Shiebkin, and the Turkish Minister. The Comptroller of the Currency reports the amount of United States bouds in deposit as security for the cir-culation of National banks on the 1st of

bonds in deposit as security for the circulation of National banks on the 1st of \$3,000 000 since the publication of his report November 1, 1875. These securities consist of \$92,870,000 of 6 per cents, including \$8,330,000 issued to the Pacific Railroad, \$211,842,000 of 5 per cent, bonds, and \$36,020,000 of 4½ per cent, bonds.

Since the 1st of November, 1875, there has been a reduction of \$11,600,900 of 6 per cent, bonds, \$12,000,000 of 5 per cent, bonds and an increase of \$25,000 000 4½ per cent, bonds, \$12,000,000 of 5 per cent, bonds and an increase of \$25,000 000 4½ per cent, bonds, \$12,000,000 of 5 per cent, bonds, \$18,364,669! Deducting from this amount the amount of legal tender notes on deposit for the purpose of retiring the National Bank circulation, we have \$302,986,289, which represents the amount of National Bank notes secured by the bonds on deposit as above given.

The net increase of the National bank circulation for the month of April was \$124,000. The amount of additional circulation issued was \$1,452,250. The amount of legal tender outstanding May 1 is \$361,494,404.

The Treasury Removals. The following is an extract from a let-ter addressed to the Secretary of the Treasury by the Committee of Investi-gation in explanation of the report recommending certain discharges in the Bureau of Engraving and Printing. Whole number of discharges, two hun-

dred and sixty-five. "Treasury Der't, April 28, 1877. "SIR—The painful duty imposed upon us of selecting the persons to be discharged has been performed with the utmost consistency and care.

"The discharge of so large a number of poorly paid and necessitous persons must necessarily produce much distress, but we are satisfied that the adoption of our recommendations will produce least hardships consistent with the observance of our instructions and the preservation of the efficiency of the Bureau.

"A careful computation shows that of 187 persons recommended for situations in Bureaus and rooms 172, or more than 44 per cent., were commended by servi-44 per cent., were commended by servi-ces in the army rendered by themselves or their immediate relatives, while of the 230 now recommended for discharge only 28 are so commended. Of the lat-ter it may be said generally that either the services rendered were remote or the efficiency of the employe is low, or the number of those to be dis-charged from the particular branches of charged from the particular branches of the service is so great that all of those having such claims to consideration, should not be retained. The 387 persons recommended for retention have 1 228 other persons wholly dependent on them for support—an average of 32-10 dependent on each. The 230 recommended for discharge have only 22 persons so dependent. In conclusion, we beg to say that the number of persons recommended for retention are, in the opinion not only of the Committee, but of the officers of the Bureau, ample for the performance of the work under the existing system.

NEW YORK CITY.

The Dry Goods Trade. National Associated Press to the Star.

NEW YORK, May 1.-The package trade is quiet in nearly all departments. and the jobbing trade has been comparatively light. There has been a light d for cotton productions from hands. Exports are unsettled in prints. There has been a fair de-mand for white and light fancy prints from agents' hands, and buff, pink and staple prints are selling in small lots to a moderate amount at steady prices. In dress goods there has been a good demand for buntings, which are likely to become very fashionable, and figured alpacas were in fair request. There has been comparatively little doing in men's

The Stevens Battery Not Sold.

It is authoritatively stated that the Stevens Battery has not been sold to the Russian Government, and though several parties have, at different times, lately examined the battery, there have been no offers from Russia or any other

overnment for its purchase.
The battery still lies on the Hoboken dry dock in which it was built, having never been launched. It needs but its armor and its armament to be ready for use, but these would cost between \$800,000 and \$400,000.

Developments in an Old Murder Case.

National Associated Press to the Star Boston, May 1.—At Dover, N. H., yesterday, detectives arrested Chas. Cook for the murder of the woman Hanson and setting fire to the building. It is reported that he has confessed to the murder, and a gun has been found with which he did the deed. A man named Buzzell was tried for the murder and acquitted. The boy Cook has confessed to burning the buildings belonging to Churchlli, a prominent witness in the trial.
